The Liberal CASH BAN - Last nail in Australia's coffin

Summary:
It's time to kill the CASH BAN Bill. Many pollies are too thick to realise the full story about caving into banker demands to kill off cash. Aussies want to live in freedom. Rights have been destroyed by pollies for decades - the Cash Ban is the final straw. Attacks on journalists & whistleblowers. Surveillance state & other attacks on privacy. Corrupt donations to parties. Unaffordable housing. Cost of living pressures. These are all signs of Australia going off the rails. **Enough..!!** Get active and put pollies in their place. They serve us .... not the bankers.

This article explains the danger and government lies .... plus gives you some downloads to help you contact MPs and Senators.

King ScoMo To Kill His Privacy As Well As Yours

The Cash Ban Bill is being promoted deceptively by the Morrison liberals -

• **It won't crack down on criminals,** because criminals won't care if cash is restricted — after all, they are criminals - they have no problem breaking laws!

• **It's not about the black economy,** as the vast majority of tax evasion and money laundering is not by individuals but by banks and multinational corporations. Australia has the 10th smallest black economy in the world and it's getting smaller. This analysis of the Black Economy Taskforce report demolishes Treasury and Frydenberg's position. They are lying >> www.exposingtheblackeconomyreport.com/

• The person who recommended the cash ban, Black Economy Taskforce chairman Michael Andrew (now deceased), was the global boss of KPMG when two of its biggest clients, giant British banks HSBC and Standard Chartered, were caught in 2012 in massive money laundering operations — KPMG had audited both banks for years, helping to cover up their crimes! **The Big Four accounting firms are the corrupt bookkeepers for the real global black economy** involving trillions of dollars of offshore tax evasion and money laundering by multinational banks and corporations. How do the big four get away with these crimes? It's easy when politicians work with them and for them.

• **Banning cash criminalises law abiding citizens** who want to use cash for privacy, and not to have to use a bank and pay bank charges. Do you want corporations and governments to know everything you buy? Do you trust politicians to look after your interests? Forcing these changes onto you is a step too far. This is a Police State / Surveillance State nightmare and we only have a small window of opportunity to stop it.

• **The real reason for the ban is to trap Australians in private banks** so they can't escape intrusive and extreme policies intended to prop up the banking system at the public's expense, including negative interest rates—charging people to have their money at the banks, and "bail-in" — confiscating people's deposits and superannuation to rescue failing banks. The banking and taxation systems are not functioning in the people's interests. They are based on lies using fraud and coercion to rob the country while enriching the elite. Sensible structural reforms are what is really needed.

• **It is the thin edge of a wedge.** The limit will be reduced very quickly from $10,000 with the aim of getting rid of cash altogether. The IMF has made this clear in easily accessible documents. It's already happened in Europe. Who is the head of the European Central Bank? Ex-Goldman Sachs man - Mario Draghi.

Opposition to the bill is not based on a conspiracy. All the information showing what the Central Banks and IMF are doing is freely available. Our exposure of this material has reached hundreds of thousands of Aussies …… and **they are angry about the gradual destruction of their rights and freedoms.** The Cash Ban is the last straw.

Thousands of you have already contacted treasury and politicians. Keep it up. Thanks to this people powered movement the Bill has been referred to the Senate for an extended inquiry. **Submissions close 15.11.19 and the inquiry will report on 7.2.20 - see links below.**

PLEASE NOTE: the rigged Treasury inquiry only gave people two weeks to submit objections .... and still over 4,000 submissions went in. Treasury is still refusing to publish them. Don't let the Libs and banks do you in. Act now ..... and flood this new Senate inquiry with submissions - we have six weeks to do it.

The ALP must oppose Morrison (the leader of the banker's party). Critical information and assistance can be found in the links below. Here is what you and your friends & family need to do -

NUMBER 1 - Call and email Anthony Albanese – Ph: (02) 6277 4022 / A.Albanese.MP@aph.gov.au

NUMBER 2 - Contact all the Senators in your State and any others you feel should know your views.

NUMBER 3 - Contact your local electorate MP and any others you feel will be helpful.

NUMBER 4 - Before February 7th focus on ALP Senators. This is critical. ALP Senators were great at the Senate hearings. They exposed the phony arguments for the Bill. The ALP can't vote for it now unless they really do want to stab you in the back.

See the attached documents for a list of the email addresses only of all ALP, Liberal, Nationals and Crossbench MPs and Senators. Just copy the addresses into your emails and send to as many as you can. You can do them individually, by State or by Party whichever is most appropriate. **All politicians must be told to STOP Scott Morrison's CASH BAN BILL. The people are not going to cop being set up and served to the banks for turbocharged fleecing with negative interest rates and the stealing of their deposits & super.**

Tell them the issue affects their electorate and State. If they support Morrison and the bankers on this one there won't be a happy ending on election night 2022.

Since when do Liberals support authoritarian policies that attack rights and freedoms? Great work from economist John Adams with his Scott Morrison leads the Communist Party?? - ***Poster - attached below.*** Spread it around please.

AND by the way - Our hardworking pollies should be free to relax knowing that their privacy will be respected. If they move to ban cash they aren't just destroying your privacy – they are killing their own too. Of course we don't mind what they do in their own time. It's a free country after all (well it used to be) … but it's worth noting – if their families can't trust them we shouldn't either.
